

AI-900D00: Microsoft Azure Fundamentals

Course Duration: 1 day (8 hours)

Level: Beginner

Overview

This course will provide foundational level knowledge on cloud concepts; core Azure services; and Azure management and governance features and tools.

Audience

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal and command line interface to create resources and does not require scripting skills. Students in this course will gain confidence to take other role-based courses and certifications, such as Azure Administrator. This course combines lecture, demonstrations, and hands-on labs. This course will also help prepare someone for the AZ-900 exam.

Course Syllabus

- Learning Path 1: Microsoft Azure Fundamentals: Describe cloud concepts
 - Describe cloud computing
 - Describe the benefits of using cloud services
 - Describe cloud service types
- Learning Path 2: Microsoft Azure Fundamentals: Describe Azure architecture and services

- Describe the core architectural components of Azure
 - Describe Azure compute and networking services
 - Describe Azure storage services
 - Describe Azure identity, access, and security
- Learning Path 3: Microsoft Azure Fundamentals: Describe Azure management and governance
 - Describe cost management in Azure
 - Describe features and tools in Azure for governance and compliance
 - Describe features and tools for managing and deploying Azure resources
 - Describe monitoring tools in Azure

AI-900D00: Microsoft Azure Fundamentals

Course Overview

The AI-900D00: Microsoft Azure AI Fundamentals course is the perfect entry point for anyone who wants to explore how AI is reshaping our world without needing a technical background.

Whether you are a student, a professional exploring a career shift, or someone working alongside AI technologies in your role, this course introduces you to the key concepts of Artificial Intelligence and the Microsoft Azure services that make it all possible.

This is your opportunity to gain a solid, practical foundation in AI from understanding how machines learn to recognizing how Azure enables ethical, responsible AI in real-world applications. It also prepares you for the Microsoft Certified: Azure AI Fundamentals (AI-900) certification.

Mode Of Delivery

Public

- Live Training (Duration: 8Hours)
- Per Participant

Self-paced

- Access to Microsoft content via Microsoft learn.
- Consultation with Trainers.
- Flexible video access.
- Access to exam preparation.
- Certificate of Completion.
